Low-Cost, High-Comfort Cow Housing Competition For Dairy Farmers of Gujarat

Last date to enter 15th January, 2022

For more details click here
Click here to send 04 images of your cow house to participate in this competition.
Winners will be selected by our experts.

1st Prize
Rs. 15,000 (1)

2nd Prize
Rs. 5,000 (3)

3rd Prize
Rs. 2,500 (7)

One special cash prize of Rs. 10,000/- if such farm has at least 50% Indigenous cow
*Prizes will be gift hampers of useful products

ORGANIZED BY
Centre for Advanced Agricultural Science and Technology (CAAST), Navsari Agricultural University, Navsari-Gujarat (INDIA) in collaboration with Indian Cattle, Nariman Point, Mumbai, Maharashtra.

* Terms and conditions apply

Sponsored by
The most important purpose of dairy cattle production is to increase the conversion efficiency of feed energy into the livestock products like milk, draught power and manure. Proper cow housing is necessary in order to get higher productivity from them. A proper housing design/structure should alter/modify the micro-climate so that animals are least exposed to the extremes of climatic conditions. Further, a good housing is also associated with better control of diseases & parasites, desirable working conditions, better integration of various routine farm practices, opportunity for higher labour efficiency, protection from predators & thieves, opportunity to express species specific natural behavior patterns and improved welfare of the animals. Loose housing system is a type of housing system in which animals are kept loose except milking and at the time of treatment and this system is more economical, comfortable flexible in nature. However, while constructing a cow or buffalo house what is required for the cow is generally ignored and these deficiencies in cow housing leads to long-lasting health and production problems. Therefore, in order to know about type of housing, various scientific details and innovations adopted by the dairy farmers a “Low-Cost, High-Comfort cow Housing Competition for Dairy Animal Farmers of Gujarat” is going to be organized under the banner of NAHEP-CAAST-NAU sub project, Navsari Agricultural University, Navsari, Gujarat in collaboration with Indian Cattle, Nariman Point, Mumbai, Maharashtra.

Organizers

Patron

Dr. Z P Patel
Hon’ble Vice-Chancellor,
Navsari Agricultural University, Navsari, Gujarat.

Advisors

Dr. S R Chaudhary
Director of research & Dean PGS,
Navsari Agricultural University,
Navsari, Gujarat.

Dr. Abdul Samad
Former Dean and DI, MAFSU,
Advisor, Indian cattle,
Nariman Point, Mumbai.

Dr. V B Kharadi
Dean & Principal
CVSc & AH, KU,
NAU campus, Navsari, Gujarat

Organizing Secretaries

Dr. Timur Ahlawat
PI and Nodal officer
NAHEP-CAAST, NAU,
Navsari.
Contact No.: 9106829400
